Assessing the Effectiveness of the Board of Directors

The effectiveness of the Board of Directors is assessed in terms of its composition, operational status, deliberation/reports at its meetings, auditing status on its business execution, and the operations of the non-mandatory Nomination Advisory Committee and Remuneration Advisory Committee. The company conducts surveys of each Director and Audit & Supervisory Board Members about their assessing the effectiveness of the Board of Directors. Based on the results of these surveys, there is then a frank exchange of views in meetings of the Board of Audit & Supervisory Board Members, in informal meetings with Outside Directors and Outside Audit & Supervisory Board Members, and in management meetings, after which the Board of Directors then conducts a review of its own effectiveness in one of its meetings based on the views expressed in the prior meetings.
