**UNIVERSAL DISPLAY AND SUMITOMO CHEMICAL SIGN TECHNOLOGY  
LICENSE AGREEMENT FOR SOLUTION-PROCESSED OLED LIGHTING  
DEVICES**

**EWING, N.J. – January 21, 2015** - Universal Display Corporation (Universal Display, Nasdaq: OLED) and Sumitomo Chemical Company, Ltd. (Sumitomo Chemical) today announced the signing of a new OLED Technology License Agreement. Under the agreement, Universal Display has granted Sumitomo Chemical non-exclusive license rights, under various patents owned or controlled by Universal Display, to manufacture and sell solution-processed organic light emitting diode (OLED) lighting products. The agreement runs for the life of Universal Display’s relevant intellectual property rights.

“Our proprietary UniversalPHOLED® technology offers up to four times the efficiency of conventional OLED technology, a critical component for high-performing, energy-efficient solid-state lighting (SSL),” said Steven V. Abramson, President and Chief Executive Officer of Universal Display. “We are pleased to enter into this license agreement with Sumitomo Chemical, one of the early OLED developers, as the company broadens into the growing SSL market.”

“Leveraging the licensed technology, we will increase the luminous efficacy of our polymer OLED lighting panels,” said Toshihisa Deguchi, director & senior managing executive officer of Sumitomo Chemical who also serves as the head of polymer OLED business planning. “We will explore business opportunities in lighting applications that take our printed polymer OLED technology to the next generation lighting.”

## **About Universal Display Corporation**

Universal Display Corporation (Nasdaq: OLED) is a leader in developing and delivering state-of-the-art, organic light emitting diode (OLED) technologies, materials and services to the display and lighting industries. Founded in 1994, the Company currently owns or has exclusive, co-exclusive or sole license rights with respect to more than 3,300 issued and pending patents worldwide. Universal Display licenses its proprietary technologies, including its breakthrough high-efficiency UniversalPHOLED® phosphorescent OLED technology, that can enable the development of low power and eco-friendly displays and white lighting. The Company also develops and offers high-quality, state-of-the-art UniversalPHOLED materials that are recognized as key ingredients in the fabrication of OLEDs with peak performance. In addition, Universal Display delivers innovative and customized solutions to its clients and partners through technology transfer, collaborative technology development and on-site training.
