

## PRESS RELEASE

28 May 2015

### **Interfarm and Nufarm UK join forces in UK and Ireland**

Interfarm (UK) Limited (“Interfarm”), an affiliate of Sumitomo Chemical Company, Limited, and Nufarm UK Limited (“Nufarm UK”) announced today that Interfarm has entered into an agreement in which Nufarm UK is appointed to be the non-exclusive distributor for Interfarm’s agriculture and horticulture range in the UK and Ireland.

Interfarm and Nufarm UK have worked towards developing a broadbased platform for both companies in an attempt to create a strong and efficient route to market as well as enhancing development, product formulation and logistics capabilities.

“This new portfolio of highly complementary products for the arable and horticultural grower will bring a more enhanced product offering to our distributors, just in time to include the launch of new exciting Sumitomo Chemical products,” said John Martin, Managing Director of Interfarm.

John Austin, General Manager of Nufarm UK, added “We are excited to collaborate with Interfarm as this offer will better serve the needs of our customers.”
